Please see FAQ'S for additional information. Drawings not scaled to size.

**WARNING**

Read the manual and follow the instructions relating to safety tips, correct and complete product assembly, setting into service, use and maintenance.  
The use of a kit swimming pool implies the respect of the safety instructions described in the manual of maintenance and use.  
The safety of your children depends entirely on you! Children under 5 years old are at greatest risk. Please take care to avoid accidents.  
Continuous and competent adult supervision of children and the handicapped is required at all times.  
Assign at least one person in charge of safety. Increase supervision if there are several people in the swimming pool. Teach your children to swim if possible. Your children's safety is your responsibility! The risk is the greatest when children are under five. Remember accidents don't just happen to others! Be prepared to react. Without adult supervision, your child's life is in danger.  
For safety, please do not set up your pool on a terrace/balcony.  
Remember to place our pool where it's possible to drain it easily avoiding flooding.  
Never let children enter or remain in the pool or pool area without adult supervision or if they are not wearing life saving devices.  
Do not allow access to the pool without a lifejacket or vest for a child not knowing how to swim well and not accompanied in the water.  
Test the water temperature before entering the pool by splashing water on your neck, arms and legs.  
Under no circumstances should any user jump or dive into the pool, serious injury or death could result. Prohibit running, playing games and other strenuous exercise near the swimming pool.  
Pool and accessories should only be assembled by competent adults.  
Do not use an air compressor to inflate the pool. Use a hand or foot pump.  
Before use, always make sure that all of the inflatable compartments are properly inflated and that there are no folds. If not, repeat the inflation procedure.  
Your pool should be filled by low pressure water flow in order to prevent undue stress to the liner.  
Bestway will not be responsible for damage to the pool due to filling via water-truck. (See FAQ's)  
Do not straddle, sit, stand, lean over or put pressure onto the top rail, doing so could result in collapse of the pool and flooding causing serious personal injury and/or damage to personal property.  
Do not leave toys near or in an unsupervised swimming pool.  
Do not swim alone.  
Do not use your pool under the use of alcohol, drugs or medicaments.  
Store chemicals and accessories out of the reach of children.  
Never add chemicals to pool while it is occupied. Consult a specialist pool supply retailer to ensure correct chemical usage.  
Always keep the pool water clean.  
Pool water should be tested regularly to ensure that the PH and chlorine concentration in the water is optimal for safe and enjoyable use throughout the season.  
Household pets should be kept clear of pool area to avoid structural damage to pool.  
Surround your pool with a fence and ensure the gate is kept closed at all times.  
Cover pool when not in use. Neither children nor adults can be seen inside the pool if the cover is in use. Remove cover completely when in use.  
A working electronic detector should be installed to alert you if someone has entered the pool area.  
Under no circumstances should this equipment replace an adult's nearby supervision.  
Do not leave ladder in pool when pool is unattended. Remember to empty and store the pool during the winter times and if the pool is not used.  
Only use Bestway accessories with Bestway pools.  
Properly maintain your pool in order to increase life span and safe use. (See Pool Maintenance Section)  
Do not operate pump while pool is in use.

**Children will be in danger without adequate supervision.**

Forbid the access of the pool in case of damage of the filter pump.  
Renew the water regularly.  
Do not put the empty pool on the ground.  
Do not call near the pool, avoid neglected supervision due to calling.  
All equipment should be inspected frequently for signs of deterioration, corrosion, broken parts or other hazards which may cause injury.  
Remember to reapply sunscreen protection regularly and always after swimming.  
Failure to follow these instructions can result in property damage, injury or death, especially for children.  
Failure to comply with maintenance instructions may lead to serious health hazards, especially for children.

**SAFETY**  
Learn the necessary rescue operations, especially those relating to rescuing children.  
Rescue equipment should be located near the pool and the supervising adult should be fully trained to use it.  
Rescue equipment should include but not limited to items such as coastguard approved ring buoy with attached rope and strong, rigid Rescue Pole of at least 366cm (12').  
Post emergency numbers including:  
• Fire (France 18)  
• Police  
• Ambulance (France 15)  
• Poison Control Hotline  
• Full home address  
Keep a cordless water-resistant phone nearby pool during use.

**In case of an accident:**  
• Take all the children out of the water immediately.  
• Call for emergency support and follow their instruction/advice.  
• Replace wet clothing with dry clothing.

Watch and react! When supervising children stay close at hand and always be alert.  
Teach your children to swim as soon as possible.  
All filtering systems are compliant with installation standard NF C 15-100 stating that any electrical appliance located less than 3.5 meters from the pool and freely accessible must only have a 12V supply. Any electrical appliance with a 220V mains supply must be located at least 3.5 meters from the edge of the pool. Always ask the manufacturer for advice before making any change to one or more components of the filtering system. (For France only)

**PLEASE READ CAREFULLY AND RETAIN FOR FUTURE REFERENCE.**

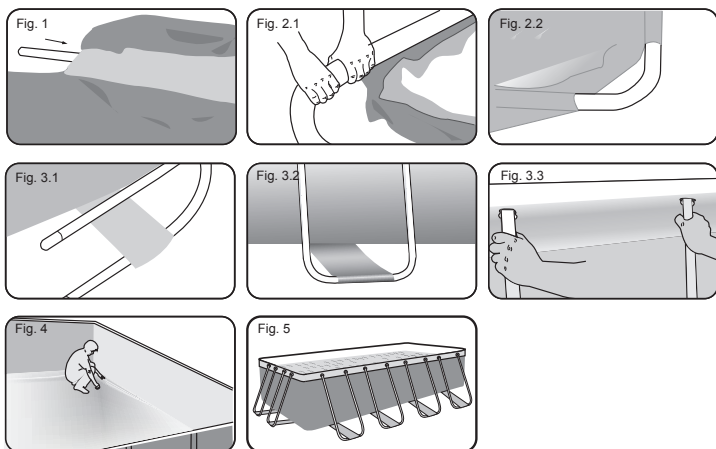

**Preparation**  
**NOTE: The pool must be set up on a completely flat and level surface. Please do not install the pool if the surface is inclined or slope.**  
• Check with your local city council for by-laws relating to fencing, barriers, lighting and safety requirements and ensure you comply with all laws.  
• Take the pool and accessories out of the carton with care. If the pool set comes with a ladder, the ladder requires a crosshead screwdriver or an adjustable wrench ( not included ) to assemble.  
• Locate your pool with a minimum of 122cm (4") space on all sides so that a child can not use an object to climb into the pool. Do not set up directly under overhead power lines or cables and be sure the location does not contain underground utility pipes, lines or cables of any kind.  
• It is essential the pool is set up on solid, level ground. If the pool is set up on uneven ground it can result in collapse of the pool and flooding, causing serious personal injury and/or damage to personal property. Setting up on uneven ground will void the warranty and service claims.  
• Sand should not be used to create a level base, the ground should be dug out if necessary.  
• Do not set pool up on driveways, decks, platforms, gravel or asphalt. Ground should be firm enough to withstand the pressure of the water, mud, sand, soft / loose soil or tar are not suitable.  
• The ground must be cleared of all objects and debris including stones and twigs.  
**NOTE:** Lawn or other vegetation under the pool will die and may cause odors and slime, therefore we recommend removing all grass from where the pool will be located. Avoid locating your pool over or beside areas prone to aggressive plant and weed species as they may grow through the ground cloth or liner.  
• We highly recommend that once the pool is unfolded on the ground cloth to let it sit exposed to direct sunlight for 1 hour or more so that the pool is more flexible during set up.  
• If purchased with a pump, the pump should be installed after pool is fully assembled. Remember to locate the intake and return outlets towards the outside power source.  
**NOTE:** If you bought a filter pump, this element has a separate manual instructions. Please open its relative box for details.  
• If you bought a separate ladder for your pool, make sure it matches the pool size.  
• Regularly check to make sure the ladder is properly assembled.  
**NOTE:** The ladder is only to be used for entering and exiting the pool.

## Installation

### Assembly of the Rectangular Frame Pool can be completed without tools.

**NOTE:** It is important to assemble pool in the order shown below.

1. Lay out all parts and check that you have the correct quantities as listed in the parts guide. If you are missing any part do not assemble the pool, contact our Customer Service Department for assistance.
2. If pool was purchased with a ground cloth, spread carefully at the desired location. Ensure the pool is located within distance of a 220-240volt AC outlet protected by a RCD (Residual Current Device).
3. Spread out the pool and make sure the pool is right side up, leave for 1 hour to soften the liner in order to make set up easier.
4. Turn the pool so the drain valve is near the area where your plan to drain the water and pump valves are facing the RCD outlet.  
**ATTENTION:** Do not drag the pool on the ground in order to avoid puncturing from sharp objects. Bestway Inflatables will not be responsible for damage caused to the pool due to mishandling or failure to follow these instructions.
5. Insert the stopper plug into the inlet and outlet on the wall of the pool from the inside of the pool.  
**NOTE:** For 549cm x 274cm x 122cm / 18' x 9' x 48", 671cm x 396cm x 132cm / 22' x 13' x 52", 732cm x 366cm x 132cm / 24' x 12' x 52" pools, please refer to the connection valve installation on following page.
6. Assemble the Top Rails. Start with the long side of the pool, begin by sliding Top Rail B into the pool sleeve. Connect Top Rail A or Top Rail E to Top Rail B, ensure the spring-loaded pins snap into the pre-drilled holes. Be sure to reference the Top Rail Combination Chart to determine the correct configuration for your pool. Continue connecting and inserting additional Top Rails. Be sure to line up the holes in the rails with the holes on the sleeves. (See Fig.1)
7. Insert the C-Connectors into the Top Rails. (See Fig. 2.1/2.2)
8. Install the U-Support; first insert the U-Support through the Pole Support at the bottom of the pool (See Fig. 3.1/3.2), then insert the two ends of the U-Support into the exposed holes on the Top Rail (See Fig. 3.3), ensure the spring-loaded pins snap into position. Repeat this procedure for the remaining U-Supports.  
**NOTE:** Complete one side of the pool before moving to the other side.
9. Pull the bottoms of the U-Support outward away from the liner and make the Pole Support taut. Repeat this procedure for remaining U-Supports.
10. Ensure drain valve is firmly closed.
11. Put 1" to 2" water in the pool to cover the floor. Once pool floor is slightly covered, gently smooth out all wrinkles. Start in the center of the pool and work your way clockwise to the outside. (See Fig. 4)

### Connection Valve Assembly

549cm x 274cm x 122cm / 18' x 9' x 48", 671cm x 396cm x 132cm / 22' x 13' x 52", 732cm x 366cm x 132cm / 24' x 12' x 52" model only

1. Screw the Debris Screen onto the Connector. (See Fig.7)
2. From inside the pool, insert this assembled Unit to the pool's inlet A and outlet B. (See Fig.8)  
**NOTE:** Ensure the Gasket is properly in place on the assembled Unit inside of the pool liner.
3. From outside of the pool, tighten the Connector Nut onto the assembled Unit. (See Fig. 9)
4. Hand-tighten the Control Valve to the assembled Unit. (See Fig.10)  
**NOTE:** Check that both the Control Valve Gasket and O-ring are correctly positioned on the Control Valve.
5. Refer to the pool manual for the rest of the pool installation.  
**OPERATION NOTE:** Use the control screw on top of the Control Valve to open and close the Valve. (See Fig.11)
6. Make sure the valve is closed.

### Filling Pool with Water

**ATTENTION:** Do not leave pool unattended while filling with water.

1. Fill pool to drain valve.  
**STOP**
2. Turn water off. Check that the water is not collecting on any side to ensure the pool is level. If pool is not level, drain water and re-level ground by digging out. (See Fig. 14) Never attempt to move the pool with water in it, serious personal injury or damage to the pool may result.  
**NOTE:** Your pool may contain up to xxxxx liters / xxxxx gallons which equals xxxxx pounds of pressure. If your pool has any bulge or uneven side then the pool is not level, the sides may burst and the water may discharge suddenly causing serious personal injury and/or damage to property.
3. Fill pool to lowest pump valve.  
**STOP**
4. Turn water off. Check valves for secure fit.
5. Fill pool until water capacity is 90%, up to the bottom of the top rail of the pool so that the sides are smooth and firm. **DO NOT OVERFILL** as this could cause the pool to collapse. In times of heavy rainfall you may need to empty some of the water to ensure the level is correct. (See Fig. 13)
6. Check pool for any leaks at valves or seams, check ground cloth for any evident water loss. Do not add chemicals until this has been done.
7. In the event of a leak, patch your pool using the patch kit provided. Refer to the FAQ's for further information.

**NOTE:** Drawings for illustration purpose only. May not reflect actual product. Not to scale.

## Pool Maintenance

If you do not adhere to the maintenance guidelines below, your health might be at risk, especially that of your children.  
**NOTE:** The filter pump is used to circulate the water and to filter small particles to keep your water free of suspended dirt particles. In order to keep your pool water clean and hygienic you must add chemicals.

To keep your pool clean:

1. Contact your local pool supply shop for advice and purchase of chemicals and PH kits.
2. Locate a bucket of water next to pool to clean users' feet before entering pool.
3. Cover the pool when not in use.
4. Skim pool regularly to avoid settled dirt.
5. Change filter cartridge in filter pump every 2 weeks.
6. Gently clean any scum from the side with a clean cloth.
7. To improve the water quality we suggest to use Bestway accessories like skimmer, maintenance kits. Please visit our website [www.bestway-service.com](http://www.bestway-service.com) or contact your pool supplier. Please be careful in case of rain water, kindly check that the water level is not higher than the expected one. If so, please act consequently.

**Proper maintenance can maximize the life of your pool.**

**ATTENTION:** Do not use pump when pool is in use.

During the season of use of the swimming pool, the filtration system must be necessarily put into service every day, enough for a long time to assure at least a complete renewal of the volume of water.

## Repair

If your pool is damaged, use the repair patch. -See FAQ's for instructions.

## Dismantling

1. Unscrew the drain valve cap on the outside of the pool counter clockwise and remove.
2. Connect the adaptor to the hose and put the other end of the hose in the area where you are going to drain your pool. (Check local regulations for drainage by-laws).
3. Screw control ring of the hose adaptor onto the drain valve clockwise. The drain valve will be open and water will start to drain automatically.  
**ATTENTION:** Water flow can be controlled with the control ring.
4. When draining is finished, unscrew the control ring to close the valve.
5. Disconnect the hose.
6. Screw the cap back onto the drain valve.
7. Air dry pool.  
**ATTENTION:** Do not leave the drained pool outside.

## Storage

1. Please remove all the accessories and spare parts of the pool and store them clean and dry.
2. Once pool is completely dry, sprinkle with talcum powder to prevent pool from sticking together, fold pool carefully. If pool is not completely dry, mould may result and will damage the pool liner.
3. Store liner and accessories in a dry place with a moderate temperature between 5°C / 41°F and 38°C / 100°F.
4. During rainy season, pool and accessories should be stored as above instruction also.
5. Unproper draining of the pool might cause serious personal injury and/or damage to personal property.

## Frequently Asked Questions

### 1. What is a suitable base for the Rectangular Frame pool?

Almost any completely flat, solid, level surface can be used. Do not use sand as a leveling material as it is prone to shifting under the pool. The ground should be dug out until it is perfectly level. Do not set up on driveways, decks, platforms, gravel or asphalt. The ground should be firm enough to withstand the weight and pressure of the water: mud, sand, soft / loose soil or tar are not suitable. A concrete base can be used but care should be taken not to drag the pool across the surface as abrasions could tear the liner. If the pool is to be set up on a lawn, it is recommended that the grass is removed from where the pool will sit as it will die and may cause odors / slime. Certain types of hardy grass can grow through the liner as can aggressive bushes / plants by the side of the pool. Ensure adjacent vegetation is cut back where necessary. Use of a ground cloth assists in protecting the base of the pool.

### 2. How will I know if my pool is set up on unlevelled ground?

If your pool appears to be bulging on one side it is not set up on level ground. It is important that you empty your pool and move the pool to a level site. If the pool is not on level ground it will place undue stress on the seams and could result in the seams bursting which will cause flooding, property damage and potentially personal injury or death.

Fill your pool following the instructions in the owner's manual carefully. This will ensure that you do not waste water and the pool can be moved easily so that the ground can be leveled at an appropriate time and not after you have completely filled it with water.

### 3. Can I have my pool filled by a water service?

We recommend using a garden hose under low pressure for filling your pool. If it is necessary to use a water delivery service, it is best to fill the pool with one inch of water by hose and smooth wrinkles first. Use a water service that is able to regulate the flow of water to prevent damage. Ensure you stop at each step as noted in the instruction manual to ensure your pool is level. Bestway will not be held responsible for pools damaged or weakened by water delivery services.

### 4. What is the maximum fill height of the pool?

Fill pool until water capacity is 90% top rail. Never attempt to fill your pool beyond the base of the rail. We recommend leaving extra room to account for water displacement when occupants are inside the pool. You may have to top up the water during the season which has been lost through evaporation or normal use.

### 5. My pool is leaking, what do I do to fix it?

The pool does not need to be emptied to fix any holes. Self-adhesive underwater repair patches can be purchased at your local pool / hardware store. For external use, use the repair patch provided. For internal holes, clean the hole on the inside of the pool to wipe off any oils and algae. Cut a circle large enough to cover the hole and apply the patch securely onto the side in the water. Cut a second patch and apply to the outside of the pool for extra strength. If the hole is in the base of the pool use one patch only and weigh it down with a heavy object while it bonds. If you have patched the pool when it is empty we recommend you leave it at least 12 hours before filling.

### 6. Where can I buy filter cartridges and how often should I change them?

Filter cartridges to fit your filter pump should be available from the store where you purchased your pool. If not, most mass retailers sell filter cartridges as an accessory. If you are unable to obtain replacements please call our toll-free number and we will assist you in finding a source local to you. The cartridges should be changed every 2 weeks dependent upon use of the pool. Check the filter on a weekly basis and clean by hosing down any debris and particles.  
**NOTE:** Ensure your pump is disconnected from the electrical supply before checking the filter cartridge.

### 7. How many times a year should I change the water?

This is dependant on the amount of use the pool receives, and the attention paid to covering the pool and keeping chemicals properly balanced. If maintained correctly the water should last a full summer season. Please contact your local pool chemical supplier for detailed information regarding chemicals, they will be able to advise you how to best maintain the cleanliness of your water.

### 8. Do I need to take my pool down for the winter?

Yes, Above-ground pools may collapse under the weight of ice and snow and the PVC walls will be damaged. We recommend taking the pool down when temperatures fall below 8°C / 45°F. The pool should be stored indoors in a moderate temperature between 5°C / 41°F and 38°C / 100°F. Please store away from chemicals and rodents and out of the reach of children.

### 9. My pool is fading - why is that?

Excessive use of chemicals can cause the color of the inside of the liner to fade; this is similar to a swimsuit fading over time from repeated contact with chlorinated water.

### 10. How many years will the pool last?

There is no set time limit for the pool to last; following the instructions in the owner's manual and with proper care, maintenance and storage you can considerably increase the life of your pool. Improper set-up, use or care can result in failure of the pool.

### 11. Do you recommend the use of a filter pump with a Bestway pool?

Absolutely! We strongly recommend you the use of a filter pump which could maintain the water of the pool clean.

### 12. Which are the most important functions of my filter pump?

The most important function of a filter pump is the elimination of every sort of impurity from the water by the aid of a filter cartridge and chemical products for its sterilization.

### 13. The top rails of the pool frame are not rigid because the C-Connectors are loose, will the pool collapse when filled with water?

No, when water is added to the pool the pressure will lock the C-Connectors into position and the top frame will be rigid.

# WARRANTY 2012

## Limited BESTWAY® Manufacturer's Warranty

The product you have purchased comes accompanied a limited warranty. Bestway® stands behind our quality guarantee and assures, through a replacement warranty, your product will be free from manufacturer's defects that result in leaks.

To enact a claim, this warranty card must be filled out completely and returned along with: (1) Your purchase receipt (2) Cut the drain valve placed on the wall of pool together with the nearby production batch number and copy them to your purchase receipt.

Bestway® is not responsible for economic loss due to water or chemical costs. With the exception of replacement product, the results of leak are not Bestway® responsibility. Bestway® will not place any products deemed to have been neglected or having been used outside of the owner's manual guidelines.

# GARANTIE 2012

## Garantie Limited BESTWAY®

Le produit que vous avez acquis comprend une garantie limitée. Bestway® est derrière notre garantie qualité et s'assure, à travers une garantie de remplacement, que votre produit ne comportera aucun défaut de fabrication donnant lieu à des fuites.

Pour faire une réclamation, cette carte de garantie doit être remplie entièrement et renvoyée avec: 1) Votre reçu d'achat 2) Enlever la soupape d'évacuation placée sur la paroi de la piscine avec l'étiquette avec le numéro du lot de production et les appliquer sur votre coupon de caisse.

Bestway® n'est pas responsable des pertes économiques dues au coût de l'eau et des produits chimiques. À l'exception du remplacement du produit, les conséquences de fuites ne sont pas la responsabilité de Bestway®. Bestway® ne remplacera aucun produit réputé avoir fait l'objet de négligence ou avoir été utilisés sans observer les instructions du manuel d'utilisateur.

## Garantía limitada BESTWAY®

El producto que ha comprado incluye una garantía limitada. Bestway® garantiza la calidad de sus productos y asegura, a través de una garantía de sustitución, que su producto está libre de defectos debidos al fabricante que puedan causar pérdidas.

Para presentar una reclamación, es necesario rellenar esta tarjeta de garantía en cada una de sus partes y enviarla junto con: (1) Su recibo de compra. (2) Corte la válvula de drenaje situada en la pared de la piscina con el número de lote de producción situado cerca y cópielos en su recibo de compra.

Bestway® no es responsable por las pérdidas económicas debidas a los costes del agua o de productos químicos. Con la excepción de la sustitución del producto, Bestway® no es responsable de las consecuencias causadas por la pérdida. Bestway® no sustituirá ningún producto que no se haya cuidado o que se haya usado sin seguir las instrucciones del fabricante indicadas en el manual.

Descrição do produto

Table with columns: Tipo, Dimensões, Tipo de instalação, and Kit. Lists various Bestway pool models (56248, 56249, 56251, 56252, 56255, 56241, 56242, 56244, 56223, 56224, 56256, 56226, 56227, 56257, 56229, 56230, 56258) and their respective kit components like filters, drainage systems, and covers.

Obrigado por ter comprado uma piscina Bestway. Afim de assegurar o máximo de divertimento e segurança ao usar a piscina, por favor, seguir as instruções de instalação incluídas no DVD, contido na embalagem, junto com importantes normas de segurança presentes no manual de uso.

A montagem demora cerca de 20 minutos com 2-3 pessoas. (Para piscinas com 287cm x 201cm x 100cm / 113" x 79" x 39.5")

A montagem demora cerca de 30 minutos com 2-3 pessoas. (Para piscinas com 404cm x 201cm x 100cm / 159" x 79" x 39.5", 412cm x 201cm x 122cm / 162" x 79" x 48", 549cm x 274cm x 122cm / 18' x 9' x 48", 671cm x 396cm x 132cm / 22' x 13' x 52", 732cm x 366cm x 132cm / 24' x 12' x 52")

Ver, abaixo, a descrição dos componentes.

Componentes:

Table with 2 columns: N. and Nome. Lists parts: 1. Válvula de Controle, 2. Junta em O, 3. Válvula vedante de controle, 4. Porca de junção, 5. Guarnição, 6. Conector, 7. Tela de protecção.

Table mapping pool dimensions to support and bar combinations. Columns include: Dimensão da piscina, N. de suportes em U, Combinação das barras superiores (Lateral longa, Lateral curto), N. de Barras superiores (A-F), and Conector em C.

Para maiores informações, consultar a secção de perguntas frequentes. Os desenhos não são proporcionais ao tamanho.

AVISO

Leia o manual e siga as instruções de segurança, montagem correcta e completa do produto, colocação em serviço, uso e manutenção. A utilização de um kit de piscina implica o respeito pelas instruções de segurança descritas no manual de uso e manutenção.

Não permita o acesso à piscina de crianças que não saibam nadar sem colete de salvação ou sem acompanhamento. Não são permitidos saltos ou mergulhos para a piscina em nenhuma circunstância; pode resultar em lesões ou morte.

As crianças estarão em perigo se não houver uma adequada supervisão.

Impeça o acesso à piscina em caso de danos na bomba de filtragem. Renove a água frequentemente. Não coloque a piscina vazia no chão. Não faça telefonemas junto à piscina; evite negligenciar a supervisão ao telefonar.

Todo o equipamento deve ser inspecionado frequentemente para prevenir deterioração, corrosão, peças danificadas ou qualquer outro tipo de perigo que possa causar ferimentos. Passar a protecção solar regularmente e todas as vezes que sair da piscina.

SECURANÇA É necessário aprender todas as operações de salvamento, principalmente as relacionadas ao salvamento de crianças. Os equipamentos de salvamento têm de estar próximos da piscina, e a pessoa encarregada pela supervisão tem de estar apta a usá-los.

Em caso de acidente: Retirar, imediatamente, todas as crianças da água. Ligar para o apoio de emergência e seguir todas as instruções e recomendações.

Observe e reaja! Quando supervisionar crianças, permaneça junto à piscina e esteja sempre alerta. Todos os sistemas de filtragem estão em conformidade com a norma NF C 15-100 que diz que todos os aparelhos eléctricos localizados a menos de 3.5 metros da piscina e com acesso livre devem ter uma alimentação de 12V.

Preparação NOTA: A piscina tem de ser montada numa superfície completamente plana e nivelada. Não instalar a piscina sobre uma superfície inclinada. Informar-se com o conselho local da tua cidade se há estatutos sociais relacionados a cercas, barreiras, iluminação e requisitos de segurança.

## Garantia limitada da BESTWAY®

O produto que adquiriu inclui uma garantia limitada. A Bestway® faz parte da nossa garantia de qualidade e assegura, através de uma garantia de substituição, que o produto está livre de defeitos de fabrico que possam resultar em avaria.

Para efectuar uma reclamação, este cartão de garantia deve ser preenchido e devolvido juntamente com: (1) O seu recibo de compra. (2) Corte a válvula de drenagem posicionada na parede da piscina junto com o número de lote de produção e copie-o no seu recibo de compra.

A Bestway® não se responsabiliza por perdas económicas devido a gastos com água ou químicos. Com a excepção da substituição do produto, as consequências da avaria não são da responsabilidade da Bestway®. A Bestway® não substitui produtos que tenham sido negligenciados ou que tenham sido utilizados da forma não especificada nas instruções do manual do utilizador.

## Garanzia limitata BESTWAY®

Il prodotto acquistato è provvisto di una garanzia limitata. Bestway® garantisce la qualità dei propri prodotti e assicura, mediante una garanzia di sostituzione, l'assenza di qualsiasi difetto di fabbricazione che possa causare perdite.

Per presentare un reclamo è necessario compilare in tutte le sue parti la scheda di garanzia e restituirla insieme a: (1) La ricevuta d'acquisto (2) Tagliare la valvola di scolo presente sulla parete della piscina e il numero del lotto di produzione posizionato accanto, quindi applicarli alla ricevuta d'acquisto.

Bestway® non è responsabile per perdite economiche relative ai costi di prodotti chimici o acqua. Ad eccezione della sostituzione del prodotto, Bestway® non è responsabile per le conseguenze causate da perdite. Bestway® non sostituirà alcun prodotto ritenuto mal conservato o utilizzato senza osservare le istruzioni riportate nel manuale d'uso.

### Opis problemu

- Produkt rozdarty / cieknie     
  Wadliwe spawy     
  Wadliwy górny pierścień     
  Wadliwy zawór odpływu  
 Produkt niekompletny, Której części brakuje – Prosimy podać kod, który można znaleźć w instrukcji obsługi.

Inne, proszę opisać \_\_\_\_\_

W przypadku próby o części zamienne konsument musi także podać stronę instrukcji obsługi, stawiając znak „X” obok brakującej lub Wadliwej części.

**Aby uzyskać naszą pomoc, wszystkie informacje muszą być kompletne, Należy wysłać razem z tym faksem kopię dowodu zakupu. MOŻESZ TAKŻE ODWIEDZIĆ NASZĄ STRONĘ: [www.bestway-service.com](http://www.bestway-service.com)**

## BESTWAY® korlátozott gyártói garancia

Az Ön által vásárolt termékhez korlátozott garancia jár. A Bestway® szavatolja a minőséget, és cserére feljogosító garanciával biztosítja, hogy a termékben gyárilag nem lehet olyan hiba, amely szivárgáshoz vezethet.

A garancia érvényesítéséhez maradéktalanul ki kell tölteni ezt a garanciakártyát, és vissza kell küldeni (1) Vételi bizonylat (2) Vágja le a medence falán lévő leeresztőszelepet, valamint a mellette található gyártási sorozatszámot, és csatolja a vételi bizonylathoz.

A Bestway® nem vállal felelősséget a vízdíj vagy vegyszer árának kifizetéséből eredő gazdasági veszteségért. A termék cseréjén túl, a szivárgás következményeiért a Bestway® nem vállal felelősséget. A Bestway® nem cseréli ki a terméket, ha az elhanyagoltnak látszik, vagy ha azt a jelek szerint nem a használati útmutatóban leírtak szerint használták.

**CÍMZETT: BESTWAY® ÜGYFÉLSZOLGÁLAT**
